

Health Initiative Contribution Form

Ooooooh,
I could sure
use your help!

Saint Bernards are big dogs with equally big health needs. Because of the generosity of many fanciers in 2012, the SBCA through the Health Initiative, is now one of the major sponsors of bloat research with a contribution of \$50,000 to the CHF. Researchers are going to work on discovering why bloat occurs and then develop effective treatment and prevention strategies. The HI has funded and is also looking at new research on other major diseases affecting Saints including osteosarcoma and epilepsy.

The HI, which is part of the SBCA Charitable Foundation, has federal exempt status and your contributions are tax deductible. Also, the SBCA board has approved a 1:1 matching contribution for the first \$5,000 donated to the HI. Not only do you get to deduct your contribution, but it will also be matched dollar for dollar!
